

Colosseum Plinths

Colosseum is one of our most luxurious plinth collections, based on a modern design and crafted from the finest materials. The cubic plinth top is carved from 30mm thick Cosmic Black Granite and pierced with 144 holes around all 4 outer sides. The granite cube has been highly polished on all external surfaces giving it a highly reflective finish that enhances the deep golden vein that runs throughout the granite structure. Illuminated internally using an LED light plate and milky, light distorting perspex.
